

COLLABORATION FOR INNOVATION AIT Solutions Event

The Asian Institute of Technology (AIT) is hosting the AIT Solutions event with the theme **Collaboration for Innovation**, on 12-13 May 2016 at the AIT Conference Center, Thailand to highlight its multi-faceted expertise in providing integrated solutions and services to industries and community.

Based on AIT's four key strengths- academics, research, professional education, and integrated solutions, the two-day event will feature keynote lectures, presentations, expert discussions, exhibitions, solution clinics, lab visits, and research competition.

May 12 will focus on the Research Competition to demonstrate various innovative ideas and give an overview of the previous work in many fields that has made significant contributions to society.

May 13 is divided into two sessions; morning session will consist of lectures and presentations by experts. The afternoon session comprises of technical and expert discussions.

Participants can visit the exhibition that will be held during the event to highlight numerous ongoing research and projects by AIT students, researchers, and faculty.

Consultative dialogue between the experts and interested participants will be arranged to identify technology and innovation requirements, pinpoint key development issues, and conduct initial assessment of R&D or solution scope of work.

Why Attend:

- ✓ Exclusive access to research and solutions generated by the Research Competition and faculty research initiatives and expertise
- ✓ Strengthen current partnerships and establish new relationships
- ✓ Identify key research undertaken with potential of being converted to applied solutions, services, products
- ✓ Learn and share innovative solutions through expert presentations, technical sessions, panel discussions, and exhibition that may help the progress of industries, development sector, and society at large

Focus Areas:

- ✓ Affordable Housing Solutions
- ✓ Capacity Building and Skill Development
- ✓ Disaster Risk Mitigation
- ✓ Food and Agriculture Solutions
- ✓ Green Energy Solutions
- ✓ Infrastructure and Structural Engineering Solutions
- ✓ Logistics and Supply Chain Management Solutions
- ✓ Robotics and Automation Solutions
- ✓ Software Development and IT Solutions

Who Should Attend:

- ✓ Private sector organizations
- ✓ Government agencies
- ✓ Development agencies
- ✓ Science parks and research centers
- ✓ NGOs / INGOs
